CLERK: 25 ayes, 4 nays on the motion to cease debate, Mr. President.

PRESIDENT: Debate ceases. Senator Cullan.

SENATOR CULLAN: Mr. President, members of the Legislature. This is the third time that we have ceased debate on this question and the third time that people who are concerned about the issue have not had the opportunity to ask legitimate questions. Like, what is youth corp that is contained in the bill and who is going to administer the youth corp and do the youth corp groups have to be part of an agency or are they private in nature? What are some of the programs that they're going to be involved in? What are there responsibilities financially? A very important question that I don't know is, who is going to be responsible if a boy scout or whoever, I don't know how it is going to work, but who is going to be responsible if a boy scout is picking up pop bottles along the street and gets run over while he is working for the state or a subdivision of government picking up cans along the street. I don't know. One case against the State of Nebraska or against a subdivision of government could cost us more than this bill could bring in in three years. I don't think that we know a lot about LB 184, I don't think that it is good to take a meat bill and make a litter bill out of it and have no public hearing, not to answer any of the questions, or not to even have the opportunity to ask some very important questions and make it become law. Senator Schmit offered me some good fatherly advice. He said, Senator Cullan, if you don't know, find out. Well, that is what I have attempted to do today and I know very little more about it now than I did awhile ago. The introducer should have some responsibility to explain the bill and answer some of these questions. They have not been answered. I don't see how we can vote for this measure. As far as Senator DeCamp's comments were concerned, Senator DeCamp tells us that we shouldn't ask state agencies or the heads of state agencies how a bill effects them because they might not tell us what we want to know. They might tell us that the bill isn't a good one when we want to pass it anyway. So, we shouldn't ask anybody how a bill is going to effect their agency and performance. Now, I don't know if the estimates given to us by Mr. Peters are correct or not. But, if it takes half of what he suggests to implement this bill that is 35¢ on the dollar. When the sales and income tax, it costs us
